Education

Mohan Babu University, MCA (Master of Computer Applications)

- GPA: 9.2 (view grade sheet)
- Coursework: Data Structures, DBMS, Java, Web Development, AI and ML, Cloud Computing

Objective

- Motivated MCA fresher with hands-on experience in community marketing through an internship at HalfPe.com.
- Passionate about building a career **in this corporate world** and contributing to real-time software and digital projects.
- In today's **VUCA world**, committed to developing a growth mindset and essential skills to remain adaptable and succeed in a fast-evolving tech landscape.

Experience

Intern - Software Development, Excelar

Apr 2025 - May 2025

A virtual internship program focused on digital skills development.

- Designed a responsive, user-interactive website using HTML5, CSS3, and JavaScript.
- Gained exposure to real-world online work environments and improved communication, time management, and reporting skills.

Intern - Community Marketing Lead, HalfPe.com

Jan 2024 - Jun 2024

An e-commerce platform offering products at 50-90% off.

- Led a team to manage daily posts across WhatsApp, Facebook, Telegram, Reddit, and other platforms, ensuring consistent and engaging content.
- Boosted engagement through strategic posting, gaining experience in e-commerce, digital marketing, and consumer behavior.

Projects

Student Record Management System

- Created a console-based system to manage student information including marks, attendance, and grade reports.
- Tools Used: Java, MySQL

Responsive Portfolio Website

- Designed a personal portfolio showcasing projects, skills, and contact info with a mobile-friendly interface.
- Tools Used: HTML, CSS, JavaScript

E-Commerce REST API Backend

- Built a scalable RESTful API for an e-commerce platform supporting product listings, user registration, shopping cart, and order management.
- Integrated JWT-based authentication, role-based authorization, and exception handling.
- Tools Used: Java, Spring Boot, Hibernate, MySQL, JWT, Postman

Technologies

Languages: Java, JavaScript, HTML, CSS, SQL

Frontend: React.js (Basics), Bootstrap, JSP, Thymeleaf

Backend: Spring Boot, Spring MVC, REST APIs, Servlets, JDBC

Database: MySOL, MongoDB (Basics), PostgreSOL

Tools Platforms: Git, GitHub, Postman, IntelliJ IDEA, Eclipse, Apache Tomcat, Maven.
